Verse 1

F#
People are searching far and wide
F#
They look to the lows, they look to the highs
F#/A# B
And they call out for signs
G#m F#
They cry on starry nights

Verse 2

You could be up on the mountainside
You could see the whole sky come aligned
But it won't bring you peace of mind
It won't give you meaning inside

Chorus

A E/G#
And we all could just stay up here
A E/G#
In our little monastery highs
A E/G# C#m
But this whole time I just had to look
D E Bsus B F#
In my brothers eye, in my brothers eye

Verse 3

I know I need a ladder to climb
Some pot of gold or buried treasure to find
But I often forget all the things
Right here in front of my eyes

Chorus 2

A E/G#
And we all could just stay up here
A E/G#
In our little monastery highs
A E/G# C#m
But this whole time I just had to look
